WHO WE ARE

International Group of Companies Termoros is engaged in production and supplies of various systems: heat supply, heating, refrigeration, ventilation, supply, water treatment, wastewater disposal, automwateration and dispatching control (including components hereto) for buildings and structures. Termoros also provides engineering and maintenance services for systems of life support of buildings and structures. International Group of Companies Termoros can become your reliable, transparent partner and stable supplier.

Ashot Danielyan

*President, Termoros Group
Member of the General Council and Business Ambassador
of «Business Russia» to Belgium and Zambia*

OUR HISTORY

Termoros creates safe, secure, and comfortable living and working conditions by developing and implementing modern, energy-efficient engineering solutions

1995-2000

Early Days

- Termoros founded
- Concluded exclusive distribution agreements with Industrie Pasotti, FAR (Italy) and Jaga (Belgium)

2001-2009

New Horizons

- Founded Termoros Ekaterinburg
- Opened offices in St. Peterburg, Kazan, Ukraine, Armenia
- Opened our first showroom

2010-2015

Sustainable Development

- Launched offices in Krasnodar, Ufa, Ekaterinburg, Novosibirsk
- Started Jagarus-our own production in Russia in a joint-venture with Jaga Belgium
- Enlarged and developed the product range

2016-2025

Upgrade period

- New strategy, new corporate style
- Started industrial division
- Modernized and expanded production site
- 90% localization of Gekon built-in radiators production

OUR EXCLUSIVE CONTRACTS AND OWN BRANDS

ITALY

Italian producer of pipe fittings, water and heating supply equipment.

Introduced to Russia by Termoros in 1996, and has been growing in sales ever since.

BELGIUM

Premium Belgian producer of heating and cooling equipment.

The first in-floor convector in Russia (brought by Termoros in 1997), one of the two remaining premium European suppliers of in-floor convectors in Russia.

RUSSIA/ITALY

Gekon is the brand of series of products for heating, water supply and ventilation systems from leading manufacturers of engineering equipment, including heating appliances of own production.

CHINA

Kromwell is Termoros' own brand of engineering equipment produced in accordance with international quality standards on the territory of the People's Republic of China.

OUR PARTNERS:

TERMOROS
Since 1995

ENGINEERING SYSTEMS

The assortment of Termoros products includes engineering systems for life support, execution of technological processes, maintenance of comfort, energy and other resource savings, providing safety of infrastructure and industrial facilities.

HEATING

Domestic and industrial heating systems

WATER SUPPLY

Industrial, agricultural, and civil water supply systems

DRAINAGE

Municipal and industrial wastewater transport and treatment

COOLING

Central air conditioning systems and chillers

VENTILATION

Central ventilation units, incl. special requirement installations

FIRE-FIGHTING

Automated fire-fighting systems and accessories

TECHNOLOGICAL PROCESSES

Circulating water supply systems, pumping of sea water and chemicals

AUTOMATION AND DISPATCHING CONTROL

Connected devices, data analysis tools, peripheral control

TERMOROS

Since 1995

WE WORK WITH:

International Group of Companies
Termoros offers complex engineering solutions for industrial objects, civil construction and housing and communal services.

We pay special professional attention to each of our projects, tracking its life cycle at all stages from creation to post-warranty service.

OIL AND GAS AND CHEMICAL INDUSTRY

Explosion-proof equipment to be used in presence of explosive mixtures, gases and dust.

METALLURGY AND MACHINE BUILDING

Automation of production processes, energy-efficient equipment, hydro-transport of solids.

CIVIL ENGINEERING

Engineering equipment for residential, commercial and administrative buildings. Systems of air and climat control.

FOOD INDUSTRY

Special design of equipment in accordance with industry hygienic requirements as per existing standards and norms. Automation systems.

ENERGY

Highly reliable, easy-to-operate and maintain equipment, seismic zone version.

PHARMACEUTICALS

Equipment for cleanroom as per existing standards and norms.

WE'RE
TRUSTED
BY:

ADVANTAGES OF WORKING WITH US

RELIABILITY

We have been working in the engineering industry for almost 30 years. More than 6 000 clients trust us countrywide.

PROMPTNESS

We have our own warehouse complexes in major Russian cities. We will deliver your order at a time convenient for you and to any location in Russia.

CONVENIENCE

Our staff will consult you and select the most suitable solution for your tasks.

HIGH QUALITY

The quality of the products of Termoros is confirmed by leading Russian and international standards.

SIMPLICITY

Partner's personal account on the website www.termoros.com simplifies the process of ordering and saves your time.
